Continuation of 11. does NOT place the application in condition for allowance because: As to the reference not teaching a controller for rectifying current of the current control rectifying element to be decreasing condition (see page 5, of the specification lines 3-10) and an on-feeding condition before a contact of the relay apparatus is opened when supplying of the electric power to the driving unit is turned off (see page 4, of the specification line 21 -- to -- page 5, line -22). Therefore, claim limitations are taught to the extent necessary to the actual claim language.
